

Simple Reserve Report Example

Andy Merlino

12/18/2014

Abstract

This document demonstrates how a very simple actuarial reserve report could be created using R. This document is only for display purposes. It was created using insurance loss data freely available on the CAS website. I am just getting started with L^AT_EX and will have more clearly documented reports in subsequent examples.

Purpose

Ractuary was requested by Nsure Ance Company (NAC) to provide a reserve estimate for their workers' compensation loss and allocated loss adjustment expense (ALAE) reserves. Losses are evaluated as of December 31, 1997...

Background

NAC began offering workers' compensation coverage in 1988. Each policy is written on a calendar year basis (i.e. beginning January 1 and ending December 31). NAC has never purchased reinsure coverage...

Other Stuff

Blah blah...

Conclusions

A summary of our reserve analysis is as follows:

Exhibit I: Reserve Summary

	Paid ¹	Incurred ²	Ultimate ³	Case OS	IBNR	Total OS
1988	125,049	133,513	138,993	8,464	5,480	13,944
1989	147,358	161,673	167,073	14,315	5,400	19,715
1990	187,760	210,204	216,633	22,444	6,429	28,873
1991	213,396	244,669	252,263	31,273	7,594	38,867
1992	213,904	253,878	261,087	39,974	7,209	47,183
1993	193,676	251,129	253,250	57,453	2,121	59,574
1994	151,081	202,911	209,512	51,830	6,601	58,431
1995	111,268	174,496	211,166	63,228	36,670	99,898
1996	66,033	143,042	174,486	77,009	31,444	108,453
1997	25,265	125,429	179,035	100,164	53,606	153,770
Totals	1,434,790	1,900,944	2,063,498	466,154	162,554	628,708

From the table above, estimated ultimate loss & ALAE as of December 31, 1997 is 2,063,498 indicating a total outstanding loss & ALAE of 628,708.2.

Methodology

We used two actuarial projection techniques (paid projection and incurred projection) in creating the final estimated ultimate loss projection. The loss projections use loss experience for the more mature accident years to estimate the development of less mature accident years. See the following exhibits for detail regarding the projections and estimated ultimate loss and ALAE selection.

¹See [Exhibit III, Sheet 1](#)

²See [Exhibit IV, Sheet 1](#)

³See [Exhibit II](#)
